ELyse Mathieu Nshimyumukiza

Currently finishing a Software Engineering program at Holberton School of Engineering through ALX Africa and a Bachelor's degree in Anesthesia. I aspire to be an instructor who empowers others by demonstrating how innovative tech solutions can transform industries. With my excellent communication, and planning skills, coupled with my people-centric approach, I am well-equipped to inspire and educate.

Skills

Project management, Community outreach, Marketing (Meta Ecosystem), Social media analytics, Team coordination, UI/UX design, Computer programming

Experience

African Leadership Accelarator / Student Recruitment Coordinator
Jan 2024 - Present, Kigali
The position involves making outbound calls to inform and assist potential learners with ALX program applications, emphasizing clear communication of program benefits and value to ensure informed decision-making.

Rwanda Culture Network (NGO) / Youth Coordinator
March 2022 - August 2023, Kigali

The role entails spearheading community outreach initiatives aimed at promoting youth programs and initiatives. This includes advocating for youth interests in diverse forums and organizing impactful events to address their concerns effectively.

ABUSAKIVI Traditional Dancing Troupe / Chief of Staff
Sept 2022 - Nov 2023, Kigali
Led administrative and logistical aspects and collaborated with team members to organize and execute successful performances.

Education

Holberton School of engineering / Associate Certificate
